

## ZINGERMAN'S® COFFEE DISPLAY

METAL made this distressed machine grade coffee display to meet both food standards and the restaurant's design specifications. This new spin on a gelato-style display provides visual appeal and physical access to the coffee beans.

## ZINC BAR

METAL worked with a local builder to design and craft the metal work for this custom bar including a distressed zinc top with vintage cold-rolled sheet. The bar resides at The Wood Shop in Clarkston, Michigan.
