

COKE BENCH

METAL restored this 1904 Coke bench with period color using PPG paint system and hand-lettered overlay.

KARMANN KOACHBUILT

METAL owner, John Daniel Walters performed a full pan-off restoration on this 1962 Deluxe Karmann Ghia. Only New Old Stock components and period interior upholstery were used to compliment the integrity of this hand built coach. Triple plated chrome bright work and stainless beauty rings wrapped with Coker bias-ply rubber accentuate the flawless two-tone paint scheme only found on these Deluxe models.
